### Education Council

The purpose of the Education Council is to provide a forum and to identify issues as related to the education of psychiatric-mental health nurses, specifically to the Advanced Practice Nurse. A recent project developed and coordinated by the Education Council is the position paper on **The Educational Preparation of Advanced Practice Nurses to Address the Mental Health Needs of Children and Adolescents.**

Members of the Education council also represent ISPN on the National Organization of Nurse Practitioner Faculties (NONPF) Committee that is revising the PMH NP competencies at the DNP level

The Education Council has also been active with the APNA/ISPN Task Force on the APRN consensus model- their report can be found on the web site.
