**DIMD
COURSE**

Advance Your Knowledge of DRBA-Induced Movement Disorders

Did you know that each dopamine receptor-blocking agent (DRBA)-induced movement disorder (DIMD) is distinct in pathophysiology, phenomenology, and treatment? Where can you go to learn the nuances of recognizing and differentiating the diverse clinical presentations of these DIMDs, as well as the available treatment options?

The DIMD Course, or Diamond Course, is a free, virtual learning resource that delves into various clinical aspects of the most common DIMDs. This comprehensive course is designed to equip healthcare providers with the knowledge and tools necessary to better understand and address the needs of their patients.

Join the DIMD Course: Scan the QR code to enroll now and begin enhancing your knowledge of DIMDs today.
