Call for Papers

Archives of Psychiatric Nursing is pleased to announce a call for manuscripts related to a special issue on **Infant Mental Health.**

Archives of Psychiatric Nursing disseminates original, peer-reviewed research that is of interest to psychiatric and mental health care nurses. The field is considered in its broadest perspective, including theory, practice and research applications related to all ages, special populations, settings, and interdisciplinary collaborations in both the public and private sectors. Through critical study, expositions, and review of practice, *Archives of Psychiatric Nursing* is a medium for clinical scholarship to provide theoretical linkages among diverse areas of practice.

The World Health Organization and Healthy People 2020 have identified the need to improve the well-being of mothers, infants and children. Manuscripts are being sought that:

1. Present data derived from quantitative, qualitative or mixed methods studies.
2. Discuss emerging clinical practice issues.
3. Examine topics related to infant mental health for example, maternal health, social support, epigenetics, and neonatal abstinence syndrome.

Inquiries about the special issue can be sent to Dr. Beth Bonham at bethbonham@coopsone.com or Dr. Andrea Kwasky at kwaskyan@udmercy.edu

Special Issue Editors: Beth Bonham, PhD, PMHCNS-BC, FAAN; Andrea Kwasky, DNP, PMHCNS-BC, PMHNP-BC
Submissions due by: June 2018
Expected issue publication: June 2019
All papers will be peer-reviewed.
All papers must adhere to Archives author guidelines: www.psychiatricnursing.org
